Section 1: Introduction

The State of Connecticut Department of Revenue Services (DRS) is planning to accept electronically filed individual income tax returns for the Tax Year 2005 beginning on January 14, 2006. This program will be in conjunction with the Internal Revenue Service's (IRS) current Federal/State Electronic Filing Program (e-file).

During this 2006 season, the State of Connecticut will allow transmittal of Form CT-1040 and will accept Form CT-1040NR/PY. All forms CT-1040EZ must be formatted using the specification for Form CT-1040. We no longer support a separate layout for Form CT-1040EZ. Connecticut also supports the electronic transmittal of Forms UC1099-G, Forms 1099-Misc and, Schedules CT-SI and CT-1040AW. DRS will then retrieve the State information from the IRS.

The purpose of this guide is to assist the software developer in preparing the State of Connecticut tax data for electronic filing. Other publications for the State of Connecticut Department of Revenue and the IRS will discuss the policies and procedures that constitute this program.

Please note: Changes applicable for Tax Year 2005 have been bolded and italicized

The following is a list of changes for the tax year 2005 State of Connecticut Income Tax **Returns:**

- 1) **Required electronic filing for those tax practitioners who prepare more than 200 prior year returns will begin with the 2005 returns due 4/15/2006.**
- 2) **ERO'S are no longer required to mail paper copies of other states returns if there is credit for taxes paid to another jurisdiction.**
- 3) **New reject code for returns transmitted without an EIN for withholding on lines 18a-18h.**
- 4) **Additional contribution added, line 70f Military Relief Contribution**
- 5) **Connecticut DRS will accept the Federal Extension if the Connecticut return will have *no tax due*, No Connecticut extension needs to be filed. (Connecticut returns that have a *balance due* will be subject to late payment penalty and interest)**
- 6)

Section 5: Exclusions from State of Connecticut Electronic Filing

For Taxable Year 2005, Connecticut will accept Form CT-1040 and Form CT-1040 NR/PY for electronic filing. Connecticut continues to support the electronic transmittal of the Forms UC-1099-G and 1099-Misc as well as Schedules CT-SI and CT-1040AW.

The following will not be acceptable for electronic filing for Taxable Year 2005. These exclusions also apply to State only returns:

- 1) Form CT-1040X Amended Connecticut Individual Income Tax Return.
- 2) Prior year returns - any return not for tax year 2005.
- 3) Non-calendar year filers.
- 4) Returns on which the filing status on the state return does not match the filing status on the federal return
- 5) Returns on which the Federal Adjusted Gross Income reported on the State return does not match the AGI reported on the Federal return.
- 6) Returns with Form CT-8379, Non-obligated Spouse Claim
- 7) Returns with Form CT-1040CRC, Claim of Right Credit

Section 6: Software Edits & Cross-Checks

Edits for Form CT-1040

- 1) The filing status claimed (A-D) must match the filing status claimed on the federal return. For the purpose of matching state and federal filing status, a check mark in Block A will convert to "1", Block B will convert to "2" or "5", Block C will convert to "3", and Block D will convert to "4".
- 2) When the filing status is "2", both the primary and spouse social security numbers must be provided.
- 3) Income and Tax
 - a) Line 1, Adjusted Gross Income must = the AGI reported on the federal return (from federal Form 1040, Line 37 or Form 1040A, Line 21, or Form 1040EZ, Line 4).
 - b) Line 2 must = Line 39, from Schedule 1.
 - c) Line 3 = Line 1 + Line 2.
 - d) Line 4 must = Line 50, from Schedule 1.
 - e) Line 5 = Line 3 - Line 4.
 - f) Line 6, Income Tax, from Tax Table or Tax Calculation Schedule (see appendix B).
 - g) Line 7 must = Line 59, from Schedule 2. If this amount exceeds \$5000, it is requested that the taxpayer mail in a copy of the other jurisdictions returns to DRS, PO Box 2933, Hartford, CT 06104-2933 (Applies to On-line Self – Prepared returns only. ERO's are required to retain all documentation for 3 years to be furnished to DRS only upon request)
 - h) If Line 6 is greater than Line 7, Line 8, Connecticut Income Tax = Line 6 - Line 7; Otherwise, enter 0 in Line 8.
 - i) Line 9, Connecticut Alternative Minimum Tax (from Form CT-6251
 - j) Line 10 = Line 8 + Line 9
 - k) Line 11 = Amount entered on Schedule 3, Line 68

Section 7: State of Connecticut Record Layout

The State of Connecticut Forms CT-1040 and CT-1040NR/PY are the only Connecticut Individual Income Tax forms that will be accepted electronically for tax year 2005. Form CT-1040EZ must be formatted to conform to the Form CT-1040 layout. The record layouts list the data fields contained in the proposed IRS generic record. The Connecticut use of the data field is listed below the IRS field description. All Connecticut data will be contained in the generic record for tax year 2005.

Please note the following items:

- 1) Whole Dollar amounts only should be entered in all monetary fields, unless otherwise noted. The format syntax is generally indicated as follows: S9(nn), where "S" indicates that the field should be signed, "nn" indicates the number of digits in the field.

As an example:

For the format S9(11), the value "-\$458" would be depicted as "00000000458-", with the proper hexadecimal representation for the sign supplied in the space to the right of the low-order digit. Note that the sign field would be space-filled to represent a positive value.

- 2) All numeric fields should be right justified and left zero-filled. Note that fields such as Date fields and Status fields utilize the common structure depicted in Item 1 above, although the sign field loses its significance.

As an example:

For the transaction date February 12, 2006, will be depicted with the value "20060212" .

Note: For software using variable length format, only provide numeric data for fields being used.

- 3) Unless otherwise indicated, all amounts from 50 cents to 99 cents are to be rounded to the next highest dollar amount. All cents up to and including 49 cents are to be dropped.
- 4) All alphanumeric fields should be left justified.

Note: For software using variable length format, only provide alphanumeric data for fields being used.

- 5) Ratios: All are located in a signed numeric field of 12 digits. All values must be rounded to four positions after the decimal places. DO NOT INCLUDE THE DECIMAL, the decimal point is to be assumed between the first and second position. Values cannot exceed 1.0000. Example: 0.0800 will be "008000000000 " and 1.0000 will be "100000000000 ".

6) If the return has a domestic address, the following must be present:

(Seq 0075), (Seq 0095), (Seq 0100).

If the return has a foreign address, the following must be present: (Seq 0077), (Seq 0087), (Seq 0098).

7) For clarification on the formatting of taxpayer name and address information, see Appendix C.

Unformatted Record

The unformatted records consist of sixteen (16) occurrences; each with 4861 characters (60 lines with 80 characters each). Connecticut will be using the unformatted records to capture pages 1 and 2 of Federal Form 1040, 1040a, 1040EZ, Form W-2, W-2G, 1099R, 1099G, 1099MISC and Schedules CT-SI and CT-1040AW.

Section 8: Unformatted Record

Connecticut will use the unformatted record layout to capture Page 1 and 2 of the Federal tax return Forms W-2, W-2G, 1099R, UC-1099G, 1099MISC, CT-SI and CT-1040AW. No Connecticut returns should be contained within the unformatted record. Up to nine unformatted records can accompany a single generic record. Each of the unformatted records consists of 60 positions of header data, up to 4800 characters comprising IRS documents (60 lines with 80 characters each), plus a record terminus for a maximum of 4,861 positions. If the required federal data requires more space than will fit in the 16 unformatted records, the return is not eligible for electronic filing.

The department will:

1. Specify that all data in unformatted records be in variable format and that the federal field numbers defined by the IRS be used in the imbedded data.
2. Require that if more than one unformatted record is used, imbedded federal forms are not split between records.
3. Store the data in the same method as the IRS, with the data being preceded by the field number. The federal data in the state unformatted should contain only the symbols and abbreviations allowed in federal records and be identical to the IRS data with the exception of four characters. For these characters, a state record character should be substituted for the corresponding IRS value. The characters are:

"{" instead of "["	"}" instead of "]"
"\$ " instead of "# "	"! " instead of "* "

- The hexadecimal representations of these characters are:

Symbol	ASCII	EBCDIC HEX	SYMBOL	ASCII HEX	EBCDIC HEX
[5B	AD	{	7B	CO
]	5D	BD	}	7D	DO
#	23	7B	\$	24	5B
*	2A	5C	!	21	5A

Return Sequencing:

Connecticut will require the following sequence within the unformatted record:

1. Form 1040/1040A/1040EZ (Page 1 and 2 only)
2. Form(s) W-2
3. Form(s) W2-G
4. Form(s) 1099-R
5. Form 1099-G (Unemployment Compensation for State of CT only)
(maximum of 2)
6. Form 1099-MISC (only if Connecticut income tax is
withheld)(maximum of 10)

7. Schedule CT-SI
8. Schedule CT-1040AW
